# ROBERT GUTIERREZ

20 Chester Place ⋄ Lynn, Ma 01904

(781) · 426 · 1370 ⋄ [guti310@gmail.com](mailto:guti310@gmail.com)

*Recent computer science graduate seeking to add value in an entry-level programming role.*

## SKILLS

| | |
|---|---|
| **Computer Languages** | |
| **(sorted by fimilarity)** | C++, Python, Java, Javascript , Bash, LISP |
| **Other Programing Language and Tools** | Emacs, Git/Github, LaTeX, HTML5, CSS3, |
| **Operating Systems** | Mac OS, Windows, Ubuntu 12.04 |

## EDUCATION

**Wheaton College, Ma**                                                                 *May 2015*
Bachelor of Arts - Computer Science

## EXPERIENCE

**Leap Motion Rubik's Cube**                                         August 2013 - December 2013
*Developer/Designer*                                                                 *Norton, MA*

· Within a group of 4 built a Rubik's Cube application.
· Used Leap Motion Controller when it was recently released
· The Rubik's Cube application made it possible to use hand gestures in order to manipulate the cube.
· Tools used were C++ and open GL. Application was cross platform between Windows & Mac OS.

**Natural Language Processing**                                         January 2014 - May 2014
*Student*                                                                                 *Norton, MA*

· Worked with Natural Language Toolkit in Python where we learned the basics of languguae processing.
· Involved breaking up sentence, and working with speach recognition.
· Got to attend a AT&T event where they displayed their SPEECH API

**Personal Website**                                                 November 2013 - September 2014
*Editor*                                                                                 *Norton, MA*

· Maintained a personal website, began to familirize myself with front end development.
· Used github pages to fimilirize myself more with version control. Website

**Emacs Documentation ES**                                             January 2014 - April 2014
*Editor*                                                                                 *Norton, MA*

· As an Emacs enthusiast began a documentation in Spanish, that allowed native Spanish Speakers to use Emacs. This was created due to limited resources in Spanish.
· Webpage documented links where you could download tools to get started.
· Displayed basic movement that is crucial to getting started.
· Created small python code that encourge editing and running code within emacs. Documentation

**NFC Application**                                                         April 2015 - Present
*Android Developer*                                                                 *Norton, MA*

· Developing an Android application that uses Near Field Communication in order to exchage contact information, including phone number and social media information.
· tools being used Android SDK and Java.
